Solid Earth

An interactive open-access journal of the European Geosciences Union

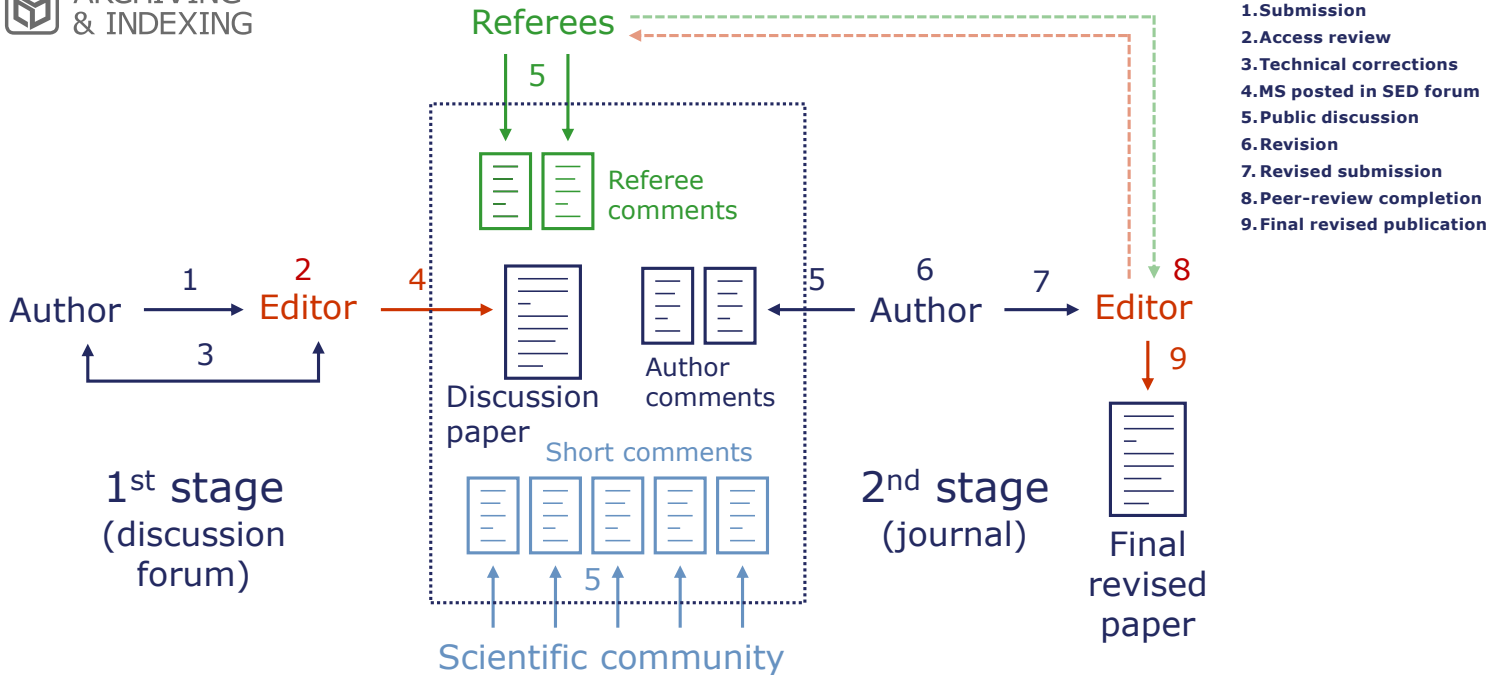

www.solid-earth.net

-  OPEN ACCESS
-  INTERACTIVE PUBLIC PEER REVIEW
-  ARTICLE LEVEL METRICS
-  MODERATE ARTICLE PROCESSING CHARGES
-  ARCHIVING & INDEXING

Interactive Public Peer Review™

- manuscript posted in the SE discussion forum
- public discussion by the scientific community
- open access to referee reports
- authors' revision and peer-review completion
- final journal publication – fully peer-reviewed

Aims and scope

Solid Earth (SE) is an international scientific journal dedicated to the publication and discussion of multi-disciplinary research on the composition, structure, and dynamics of the Earth from the surface (including soil) to the deep interior at all spatial and temporal scales. The journal invites short communications, research articles, review articles, and commentaries on all aspects of the solid Earth, encompassing observational, experimental, and theoretical investigations. The main subject areas include crystallography, geochemistry, geochronology,

geodesy, geodynamics, geomorphology, geophysics, glaciology, marine geology, mineral and rock physics, mineralogy, palaeontology, palaeoseismology, petrography, petrology, quaternary geology, remote sensing, sedimentology, seismology, soil science, stratigraphy, structural geology, tectonics, and volcanology.
